EDUCATION

Junior Developer, Mississippi Coding Academies, May 2019

English with a concentration in Computer Science, Jackson State University, April 2016

WORK EXPERIENCE

St. Dominic Hospital, *Store Keeper*

November 2017 - June 2018

- Unload medical supplies to stock our warehouse shelves to deliver those supplies around the hospital.

United Parcel Service, *Package Handler*

December 2016 – November 2017

- Loaded boxes into UPS trucks to enable the drivers to deliver the product to the correct location.

TECHNICAL EXPERIENCE

960 Project, Mississippi Coding Academies

August 13, 2018 to August 24, 2018

Goal: Created a full working website using the 960 grid.

- Utilizing the 960 grid to create a visual layout for the user.
- Utilizing CSS to renovate my home page and services page.
- Designed a Home button and a Service button to go between the two pages.

Pizza Project, Mississippi Coding Academies

July 9, 2018 to July 18, 2018

Goal: Developed a program that allows users to order a pizza.

- Creates a function that asks the user to select toppings they want on their pizza.
- Allows the user to add a topping to the list if they choose too.
- Allows the user to complete their order after making a topping suggestion.

Burger Project, Mississippi Coding Academies

July 9, 2018 to July 18, 2018

Goal: Developed a program that imports the function from the pizza project to order a burger instead.

- Import the function from the pizza project to the burger project to use it for another program.
- Allows the user to add a topping to the list if they choose too.
- Allows the user to complete their order after making a topping suggestion.
